Dear Esra.

Thank for your questions!

I look very good questions for children. Especially this (written by my otherwise): Your friends's parents are friends with your parents?

Tell me your opinion on what the question in Chinese. In Chinese characters can be glimpsed the same question in Turkish, English, German Idoma (Surely my translation is wrong, but it is an example, a sketch).

Your friends's parents are friends with your parents? Eltern von junge mit Ihre Freunde sind die Ihren Eltern? Anne anne ile Arkadaşlarının arkadaş mısınız?

Un abrazo.

Emilio
