

Hallo Ysavo,

thank you very much for you e mail,

and the song what you send me, is beautiful and the text is very strong and gives many messages, this is very important in music, in my opinion.

So for me rap is a protest, rap is a language, you can use it every where, you can take it every where with you, you can give message, you can talk about reality, about racism, about important political themes. therefore i say, rap is my way:)

I was born in Austria, my parents are from turkey, i visit the school in austria , but i see every where racism, the most racism is in the system...therefore i rap:)

But Thank you very much for liking Esrap:)
